

## COMMISSION CONSULTATION ON RAIL PASSENGERS RIGHTS

The European Commission has published a new consultation on the revision of the [Regulation on Rail Passengers Rights](#) (1371/2007). All EDF members, both individuals and organisation, are encouraged to participate in the consultation to make sure the revision of the Regulation will result in positive changes for persons with disabilities.

The Regulation also contains some important aspects for persons with reduced mobility and persons with disabilities and EDF has long campaigned for improving the rules for example on pre-notification to book assistance. More background information can be found in EDF documents such as the "[State of play of rail accessibility 2014](#)" and the "[Situation of passengers with disabilities in the EU 2015](#)".

The consultation can be found on the [Commission's website](#) and it will be open until **5 May 2016**.
