

'Disability contacts'

In order to improve the involvement of the representative bodies (health, employment, justice, etc.), all members of the Federal Government were asked to appoint one contact within the federal strategy units and administrations.

The role of the disability contacts is to:

- guarantee to all persons with disabilities that they can fully enjoy their fundamental rights and that account is taken of their specific needs
- ensure that in every decision and/or measure that is taken and in the development of all policies, account is taken of the "disability dimension".
